# **EARTH** **ART!**

**JULY 16- 20, 2007**

At **EarthTeach Forest Park**

Every artist can be a courageous explorer of imagination  
& every explorer can artfully experience the world.

Come discover EarthTeach Forest Park and the thrills of creativity!

**EARTH Day Camp** (formerly and fondly known as Fine Arts at Earth Teach) combines a half-day of arts classes taught by professional artists with a half-day of being guided on the land with skilled and adventurous members of the Coyote Trails School of Nature staff. Throughout EarthTeach Park, we will play games, sculpt, observe native animals and birds, track & sign, sketch & paint, laugh (a lot), practice silent movement, do some storytelling & journaling, experiment with shelter construction, make fire (without matches or lighters), create masks, make new friends, and truly explore nature and ourselves. ALL campers will have classes with each of this year's arts instructors including: Wataru Sugiyama, Cynde Gragert, Stefan Ransom, Emily Benz and Martha Phelps Cotton.
